

## 90° Inside Elbow with Cover

The product with code T00911040, called 90° Inside Elbow with Cover COP 100x 400 Upward Bend, belongs to the category of cable tray components. It is designed with a safety profile and self-locking snap-on cover and allows the cable route to be changed from horizontal to vertical. All components have an internal radius of 100 mm. The product is made of Sendzimir galvanised steel with a thickness of 1.0 mm for the body and 0.8 mm for the cover, and is also available in hot-dip galvanised, painted and stainless steel finishes. This solution combines quality, functionality and ease of installation, offering an efficient and practical option for cable management.
