Certifications

H.50 - Joint plate with threaded pins
 To be installed also with item T0 053 - H.50 - Cable tray for motorway tunnels

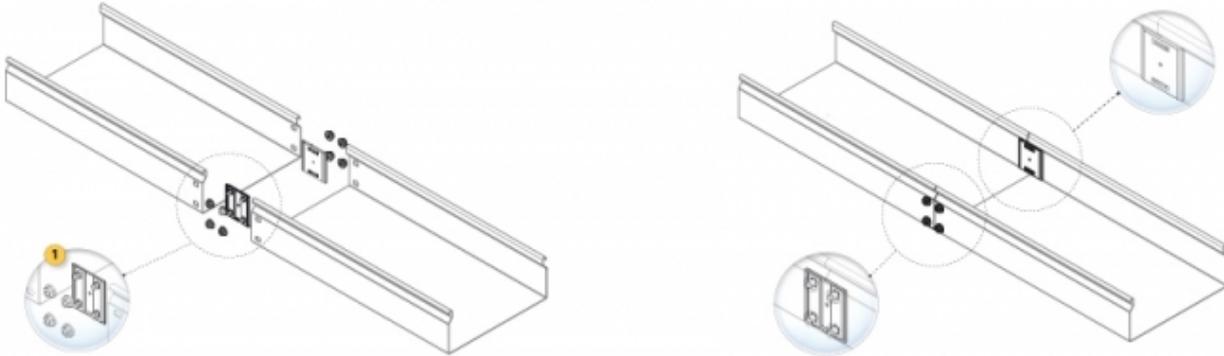

H.75/100 - Joint plate with movable screws

Joint plate

Applications

Our movable screw joint system is extremely useful. It is a great innovation that combines quick assembly and equipotential connection of the elements of the ZT system.

Inside the trunking, the heads of the bolts are recessed and protected by a plate (1) which makes it possible to pull electric cables without fear of damaging them.

Joint plate

Assembly

n. 4 M6 TO 621 0600 *included*
